

Dear FCC,

I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. XM satellite radio provides variety and quality that are not available elsewhere. I choose to pay for these services and it should not be up to the National Association of Broadcasters to dictate what I want to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I choose to pay for
